

Narrated Presentations - Keynote (Apple Mac OS and iOS)

Apple Keynote (Macintosh / iOS Only)

Step 1: Create your Slides: [Keynote Support](#)

Step 2: Add your Audio Narration: [Keynote for Mac: Add audio to a presentation](#)

Step 3: Export to Quicktime (Self-Playing, 720p): [Keynote for Mac: Export a Keynote presentation to PowerPoint or another file format](#)

[General Keynote Help for Mac](#) | [General Keynote Help for iOS](#)

NOTE: If you created your narrated presentation on a Mac using PowerPoint, the audio will **not** play in the video. You can however take the .ppt file to a Windows computer, open it in PowerPoint and Export as Movie (Older versions Save As Windows Media Video).
