At the conclusion of each course, students can complete a course evaluation form online. Evaluation comments provide valuable information about specific courses and the teaching effectiveness of instructors. Students are urged to participate. Course evaluations are conducted electronically; near the time of the final class meeting, students will receive an email containing a link to the evaluation. Students are allowed approximately one week after the last day of the course to access and complete the form. The individual instructor and the associated program director receive a summary report of the confidential comments only after final grades for each class have been submitted to the Registrar.
