

# eduroam for Windows 7, 8 & 10

## Summary

The following steps indicate how to create your eduroam profile on Windows 7, 8 & 10 to connect to the WiFi. Why do this? An increasing number of campuses are using this eduroam service which means you can stay connected with WiFi on their campus with your eduroam profile!

## eduroam for Windows 7, 8 & 10

1. Open a new browser (this step-by-step was done on Chrome) and go to <https://eduroam.bethel.edu>

- **Note:** *If you are not connected through ethernet or an alternative wireless connection, you will need to connect to Bethel-Guest to get temporary access to get to the site <https://eduroam.bethel.edu>. Follow this [link](#) on how to connect to Bethel-Guest as a Bethel user.*

2. Click **Download your eduroam installer**

#### Welcome aboard the eduroam® user community!

Your download will start shortly, in case of problems with the automatic download please use this direct [link](#).

Dear user from Bethel University, St Paul,

We would like to warmly welcome you among the several million users of eduroam®! From now on, you will be able to use internet access resources on thousands of universities, research centres and other places all over the globe. All of this completely free of charge!

Now that you have downloaded and installed a client configurator, all you need to do is find an eduroam® hotspot in your vicinity and enter your user credentials (this is our fancy name for 'username and password' or 'personal certificate') - and be online!

Should you have any problems using this service, please always contact the helpdesk of Bethel University, St Paul. They will diagnose the problem and help you out. You can reach them via the means shown above.

eduroam-W10-BUSP.exe

4. Continue with the install until you need to enter **username** and **password**

### Configuration Assistant Tool

5. Enter **username** and **password**.

Username is your Bethel username followed by (@bethel.edu). In many cases this will be the same as your Bethel email, however, if you have set up an Email Alias to override the default email, this will NOT work for your eduroam profile and you will need to enter your username followed by (@bethel.edu). The password is the same for any other Bethel login.

6. Click **Install**

7. Click **Yes** in the Security Warning window that pops up

8. Click **finish** to complete the download and installation of your eduroam profile.
