

# Visitation Hours

There are no specific hours when students must be in their residence halls at night. The Residence Life staff does encourage students to incorporate healthy amounts of sleep into their schedule as part an effort toward well-being.

Visitation by the opposite sex is allowed in the residence halls; however, to preserve individual rights and privacy, visitation is limited to certain hours of the week. During visitation hours, room doors should remain open. Visitation is by invitation only, and all students and guests must leave at the designated time. It is each student's responsibility to monitor the time and confront violations of visitation policy. Abuse of visitation privileges will result in fines and disciplinary action.
