Syllabi - CAPS

Students often need to refer back to course syllabi for transfer of credit to other institutions or other purposes. Please retain all course syllabi for your records as Bethel is not responsible for providing students with syllabi from previous years. Syllabi are typically available in Moodle two weeks prior to course start date, or one week prior for the first course in the program.

Courses in Moodle are typically removed two weeks after course completion. Syllabi for each class will be delivered via your Bethel University Moodle account. Access Moodle at moodle.bethel.edu.
