

Student Handbook - Graduate School

This handbook provides information about institutional policies and student services for students of the Graduate School (GS).

Including policies and services, this handbook is Part Three of a three-part series. Part One is the *application*. Part Two, the *catalog*, relates to the academic programs and outlines university procedures and expectations of students. Find the catalog online at catalog.bethel.edu.

Every student should be familiar with, and will be held responsible for, the academic regulations, campus procedures, and the Bethel Community Expectations as stated in these three publications, as well as information published in Bethel's electronic newsletter, E-Announcements.

If you have questions or concerns during your time at Bethel, please contact your [Student Success Advisor](#).
