

University Computer Labs

Summary

This article contains general information on Bethel University's academic computer labs on the St. Paul campus.

Bethel University Library lab

The BU Library has an iMac computer lab and Windows desktop PCs throughout the library. The BU Library also provides scanning stations, multimedia rooms, printers and reference support for students, staff and faculty to use during the Library's business hours.

For more information on the Library technology please contact the University Library Reference Desk at 651-638-6500 or <https://www.bethel.edu/library> .
