

Shuttle Service

Transportation, as an office of Safety & Security, provides a variety of services to support the University with safe, reliable, and accessible transportation.

Bethel offers a free shuttle service for community members and guests to ride on and off campus. Bethel operates a variety of shuttles to provide transportation around the 3900 St. Paul Campus, Anderson Center, and select off campus locations. Shuttle stop locations can be found on the Campus map. The shuttle typically runs 7 days a week, but the schedule and availability will change during holidays and breaks. Questions about the shuttle should be directed to The Office of Safety and Security at 651-638-6400. Visit bethel.edu/transportation/ for complete information.

At this time both the campus and off-campus shuttle operate on an on-call basis. The shuttle will pick-up and drop off at any dormitory or academic building with street access, at the door closest the street. (Example: Lissner Hall: First Level, side door facing Bethel Drive.)

Transportation operates one state-inspected and ADA-certified lift-equipped bus to transport community members with long-term or temporary mobility impairments, in cooperation with the Bethel Office of Accessibility Resources and Services (OARS) and Campus Health Services. The ADA van can pick up and drop off passengers at the ADA (side) entrances to Lakeside Center, Robertson Center, and Hagstrom Center, and to/from the Health Services office on Kresge Commons when requested by Health Services staff.

Bethel Shuttle stop locations can be found on the campus map.
